*smile*  
ENHANCE YOUR *life!*

TRUST YOUR SMILE TO A SPECIALIST

**Dr. Marshall Fagin**  
Prosthodontist

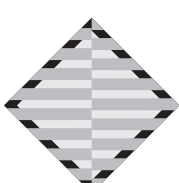

**Q:** **Having several esthetic problems, I'm very nervous not knowing how a 'makeover' will look. Is there a way to show me first to put me at ease?**

**A:** For several years I have offered computerized dental imaging to show patients how they're own smile would look with a makeover. Another big hit, which has brought tears to many patients, is our in your mouth 'Mock-up', which gives you an instant makeover in your own mouth with temporary plastic tooth colored overlays made from a custom diagnostic waxing. Giving our patients a clear vision of their outcomes before we start creates a "win-win" for all, no surprises and very happy patients. A combination of Lumineers, veneers, or crowns would be chosen, depending on the needs of each patient. Lecturing and giving hands-on clinics for dentists on this subject for many years and working as a team with other specialists when needed, our patients have learned to trust our expertise.
