Q: I look old and can't eat well with my dentures. Are dental implants worth it?

A: Our patients have but one regret, not seeing us sooner, suffering too long in silence! As a specialist, restoring many patients with *implant supported dentures* for almost 20 years, I know the sooner you get implants after losing your teeth, the better the bone preservation and more support you get. Don't wait until it's a disaster! No more embarrassing moments from slipping dentures during eating, kissing or swimming! In addition to giving our denture patients a great smile, *Implant Supported Dentures* dramatically enhance your quality of life.
