TRUST YOUR SMILE TO A SPECIALIST

**Dr. Marshall Fagin**  
Prosthodontist

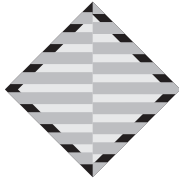

**Q:** As a Prosthodontic Specialist, what gives you passion for your work?

**A:** WOW! I LOVE IT! I CAN SMILE AGAIN! YOU ARE AN ARTIST!

Hearing stories from our patients of how we have changed their lives, while educating dentists around the country on techniques that have allowed me to restore smiles and chewing function, are both richly rewarding. To hear our patients share how their children or grandchildren tell them they seem happier because they're smiling more, or how much more confidence they have in both their personal and professional lives, keeps me excited. In a Harris poll of 18 to 50 year olds, 75% felt a smile is important to succeed at work and 71% to make new friends. Patients unhappy with crooked, chipped, discolored and missing teeth or with removable dentures are often referred from friends or from their dentists to us. Wowing our patients with the best in customer service, being really good listeners, and restoring them one smile at a time, makes every day a great day.
