ENHANCE YOUR *life!*

TRUST YOUR SMILE TO A SPECIALIST

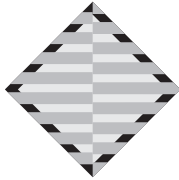

**Dr. Marshall Fagin**  
Prosthodontist

**Q:** Do I really need a Comprehensive Dental Exam?

**A:** This is the best investment you can make if planning any major dentistry or you want to create a lifetime strategic plan for dental health. After a thorough review of the patient's desires, medical and dental history, and their past treatment experiences, a comprehensive exam of their teeth, gums, bone, bite, jaw joints and muscles is done. An oral cancer exam and full mouth x-rays are done, combined with a complete smile analysis, photos, and models of their teeth. Often I will do my own diagnostic wax-up of the planned crown or veneer restorations. Comprehensive dental reconstruction of any kind will have more predictable outcomes when you begin with a comprehensive plan in mind. As a Prosthodontist I refer patients to other specialists since comprehensive treatment often requires a multidisciplinary approach. Patients appreciate having a team of experts planning their treatment options. Once a plan is accepted, integrating the best sequence of treatment is decided upon. **Call today for your comprehensive exam.**

- Tooth Whitening
- Cosmetic Veneers & Crowns
- Complete Dental Rehabilitation
  - Crowns & Bridges
  - Implant Crowns & Bridges
  - Implant Supported Dentures
- Complete & Partial Dentures
