TRUST YOUR SMILE TO A SPECIALIST

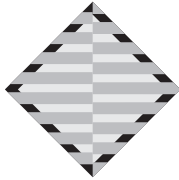

**Dr. Marshall Fagin**  
Prosthodontist

**Q:** I need a facelift and a new smile. Where do I begin?

**A:** As a specialist, I believe in a team approach, beginning with consultations with both our office and the plastic surgeon. Facial features, lip line and appearance of the smile, conditions of the teeth, gums, bone and bite, and position and number of missing teeth, all are important to the planning. If weight loss is being planned, it will affect the fit of a complete denture, influence the size and shape of teeth and fullness of the smile. This will also affect cheek and lip support. Sequencing is also important and can vary depending on individual goals. Whether crowns, veneers, Lumineers, implant supported crowns, bridges or dentures, an integrated program with well planned goals by experienced professionals is most important. **Call Fagin & Associates - Prosthodontists today, for your comprehensive exam. Know the whole picture before you start.**

- Tooth Whitening
- Cosmetic Veneers & Crowns
- Complete Dental Rehabilitation
  - Crowns & Bridges
  - Implant Crowns & Bridges
  - Implant Supported Dentures
